THE EVENING BULLETIN

OFFICE OF THE LOUISVILLE JOURNA TERMS.

THE WEEKLY BULLETIN

BLE ALWAYS IN ADVANCE:

THURSDAY, JULY 12, 1855.

We learn through passengers from Frank fort that the clerk of the Court of Appeals yesterday granted an appeal, with supersedeas, to the "City of Louisville" from the judgment of the Jefferson circuit court, awarding a mandamus, at the suit of Michael Kean against the Mayor and General Council. Afterwards Kean, by his counsel, moved the Court of Appeals to quash the appeal and supersedeas, contending that the "City of Louisville" was not a par y to, or so interested in, the judgment as to authorize her to appeal. This motion was likewise argued and submitted yesterday. It is understood that a decision will be rendered this morning, and we expect to be able to announce the result in the Evening Bulletin.

It must be understood that the merits of the case are not involved in the question now before the Court of Appeals. But if Kean's motion is not sustained, all further proceedings against the members of the council will be suspended until the final decision of the case by the Court of Appeals.

THE NEW CITY CLOCK .- We understand that this much-needed regulator of city time has arrived, but, in order to place it in the most favorable position possible, the trustees of the Walnut Street Church, upon which it is for the present to be placed, have determined to raise the dials and complete the spire before it is put up. The work is already begun, and will probaby be completed in sixty days. As these changes have been determined upon, we would suggest to those interested that illuminated dials, like those in the old State House in Philadelphia and in the City Hall of New, York, are very far preferable to wood.

We have conversed with a gentleman perfectly familiar with clocks and clock-making, who saw the Louisville clock while running at the actory, and he says it is the most perfect piece of mechanism that he has ever seen, and he does not hesitate to pronounce it the best clock in America. We hope then that the work will not be completed without glass dials, which would add so much to the convenience and ornament of the city.

CRIMINAL COURT .- James McMullen, charged with killing George Hampton, was tried and acquitted on Tuesday evening.

Yesterday morning, Sam. Johnston, charged with stealing copper, was convicted to the penitentiary for one year.

Barney Donnelly, charged with stealing a carpet-bag, was acquitted.

Nolle prosequis were entered in the following cases: J. D. Girard, who was charged with killing a man named Brooks; Fred. Howard, charged with stealing a horse; and Wellington Grant, felony.

The following cases were continued: Com'lth vs. Scaggs, same vs. John Noble, same vs. John Kouss, same vs. Jake.

Frances Reed (f. w. c.), and Frances Jones (f. w. c.), stealing jewelry from a lady passenger on a steamboat, were convicted for eighteen months each.

Overton Wade (f. m. c.), was discharged. Abraham Mendel, Henry Porter, and Charles Smith forfeited their recognisances.

The grand jury returned indictments against Abraham Mendel, Martin Higgins, Henry Myer, Frank Marshall, Thomas McIntyre, David Yarborough, Charles Lotze, Henry Porter and Charles Smith, Isaac Churchill, Lewis Dixon, Henry Cunningham, John Young, George Keppel, Victor Stoltz, Caspar Reppert, and Ferdinand Fix.

EARLY PEACHES .- Our thanks are due to Mr. John Thatcher, of Glenwood, for specimens of an early peach of a variety new to us. They were ripe ten days since, but were not discovered by Mr. T. until since the last weekly horticultural exhibition, when they had nearly all fallen from the trees and were over-ripe. It is a free-stone peach, two inches in diameter, of a beautiful red color-the red extending into the flesh; stone very small, flesh tender and of good flavor; leaves serrated, and each contain two minute globose glands. The trees are budded and were set last fall without name. It compares closely with a new variety known as Troth's Early and described in some of the Eastern catalogues as superior to the Serrated Early York or Early Tillotson, and as the most profitable market peach.

The boot is on the other leg.
Southern Democrat.

We believe that the editor of the Southern Democrat, whatever leg the boot is on, generally

The board of school trustees on Monday held the annual election for teachers of the schools. We have since made repeated efforts to obtain a list of the teachers elected, but the secretary of the board holds that he has no right to let a list be taken without the vote or consent of the board, and, as this body has not yet voted upon the subject, the names of the new teachers must remain for the present someof a mystery. We presume the secretary will be very careful not to betray the high trust reposed in him by a revelation of the important official secret.

Matilda's effusions are always exquisite: [For the Louisville Bulletin.]

то --

Oh! I have loved thee with a life's devotion I had no hope that was not linked to thee, My heart was like some lone shell of the ocean, Forever making tender melody;

I thought not, dreamed not, of the many changes That time might bring upon thy heart and m thought not of the cold world that estranges The fondest hearts; I only felt that thine, True as the shell that moaneth of the sea.

Am I deceived? and has thy heart forsaken The troth that filled it in life's early hours?

Have careless words affection's sweet ties broken?

Has aught unbound that once strong love of ours?

It is not well, dear one, to brock so lightly

The chain that linked our clinging hearts in one;

Few other hearts may cling to the as brightly, Ay few perchance may love as I have done. But let it be, my heart through every ill Will cling th thee unchanged and bless thee still.

THE NORTH AMERICAN REVIEW .- We have received the July number of this excellent monthly. The following are the titles of the articles: "The Clubs of London," "American Society," "Gymnastics," "Hufeland's Art of Prolonging Life," "Mount Lebanon," "Lord Carlisle's Diary," "Private Life of Charlemagne," "The Persistence of Physical Laws," "Records of Travel," "Art," "Working-Mens" College," "Critical Notices."

The river commenced rising slowly evening before last. Last evening there were about 6 feet water in the canal. The telegraph reports the river falling at Cincinnati, but there is another rise coming from Pittsburg which will keep the river in a good stage for some time.

The Cumberland was falling on Monday evening with three feet water on Harpeth shoals.

The Cincinnati papers contain detail accounts of the arrests of Charles Rowecroft, British consul, and a number of others, for having been engaged in hiring or retaining and enlisting various persons for the British service. An examination of the case was postponed to the following day. The telegraphic dispatch gives further particulars.

A RAILROAD CAR ON FIRE-A NEWSPAPER MAIL DESTROYED .- The baggage car of the train which left Jeffersonville yesterday morning for Cincinnati took fire at Seymour, and about one-half of the car, with the newspaper mail and an express baggage were burned up. The fire originated from some combustible materials used for annihilators.

Two locomotives for the Nashville road built by Mr. James Niles, the celebrated manufacturer of Cincinnati, were brought down on two flatboats yesterday. They are moored at the foot of Sixth street. Mr. Niles is also in

Good News .- Flour was selling yesterday at

KENTUCKY DIVIDENDS .- From the following it will be seen that good dividends have been made, during the last six months, by all the monied institutions of the State. The turnpike and other like improvements, owing to the failme of the crops, have not paid so well. On the 1st inst., the following dividents were declared:

Bank of Kentucky 5 Northern Bank of Kentucky 5 Southern Bank of Kentucky 41 Farmers' Bank of Kentucky 5

CHOLERA .- The Paducah Democrat of the 7th says:

We learn that up to Monday evening there had been ten or twelve deaths from cholera at Bell's Mines, in Union county.

To the Editors of the Louisville Bulletin:

CINCINNATI, O., July 10, 1855. GENTLEMEN:-I notice the following article

"Judge Buchanan, of the Supreme Court of Louisiana, has instituted before one of the Recorders of New Orleans an action for libel against the proprietors of the New Orleans at the New

cision made by the Judge."
You are in error, and the facts are as follows:
Judge A. M. Buchanan, Associate Justice of
the Supreme Court of Louisiana, caused the arr a communication reviewing a judicial de

rest and arraingment before Recorder Bright of H. B. Eaggleston, Esq., attorney at law of that city, for an alleged libelous publication written and published by him in the Bee over the signature of "Heav". The publication The publication referred to is a ture of "Lex." review of a decision rendered by Judge Bu-chanan in the Supreme Court Eaggieston was held to bail in the sum of \$1,000.

Yours, respectfully, W. W. McGARITY, Of New Orleans.

NEWS ITEMS.

The Bayou Sara Sufferers .- The Baton Rouge Gazette states that the situation of many of the sufferers by the late fire in Bayou Sara is deplorable in the extreme. Some are reduced to absolute want. Owing to the difficulty of obtaining insurance in the country, the larger portion of the property destroyed was wholly uninsured.

Kansas Legislature .- The Kansas Legislature met on the 2d inst. Thomas Johnson, of the Methodist Mission, was elected President of the Council, and Richard R. Pease, President pro tem.; J. A. Holderman, Secretary; and Mr. Grover, Assistant Secretary; Daniel S. Stringfellow, Speaker of the House; Mr. Lile was chosen Clerk; and Mr. Martin, Assistant Clerk.
All the members were admitted to their seats upon certificates from the Governor. It was supposed the Legislature would adjourn to the chosen Clerk; and Mr. Martin, Assistant Clerk. Methodist Mission on the 7th.

The President of the Memphis and Charleston Railroad has succeeded in purchasing 7,500 tons of iron rail, which is sufficient to finish the whole road.

Henry Rodewald, a well-known merchant of New Orleans, died of apoplexy at Claiborne, Ala., last week.

The Louisiana American convention, which was in session at New Orleans last week, made the following nominations: For Governor Charles Derbigny, of Jefferson; for Lieutenant Governor Louis Texada, of Rapides; for Secretary of State R. G. Beale of East Baton Rouge; for Treasurer J. V. Duralde, of West Baton Rouge; for Auditor Walter Rossman, of Claiborne; for Attorney General Randell Hunt, of Orleans; for Superintendent of Public Education O. D. Stillman, of Ouachita.

Destructive Fire in Norfolk.—We learn from the Transcript that on Friday night the stores of Messrs. Shields, Nash, Blufore, Riley, and Ried, with all their contents, were entirely destroyed by fire. Total loss estimated from \$75,000 to \$100,000, nearly the whole of which was covered by insurance. Loss of the American Insurance Company about \$9,000.

TWO WEEKS LATER FROM CALIFORNIA. The Northern Light arrived at New York on Sunday evening, in seven days from San Juan, with passengers and treasure from San Francisco, per steamship Sierra Nevada, June 16th, making the trip from California in 22 days. We give below such items of news as were not reported by telegraph:

Affairs in Central America are in a more dis turbed state than heretofore.

The town of San Juan has again been organ

ized under the head of T. J. Martin, the late

[Correspondence of the N.Y. Journal of Comme SAN FRANCISCO, June 16, 1855.

We notice among other shipments of flour and wheat per the ship Adelaide, for N. Yotk, 100 hhds. of Croton Mills, equal to 900 bbls., Hecker's self-rising flour, which was purchased by the shipper at the rate of \$5 per bbl. Also a lot of Southern flour in barrels, to say nothing of some very superior samples of white wheat. The ship S. S. Bishop has sailed for New York with a full cargo, mostly breadstuffs, as folwith a full cargo, mostly breadstuffs, as fol-iows: 7,316 bags of wheat, 541 bbls. flour, 178 bales wool, 138 pkgs. butter, 2 cases furs, 14 boxes, 5 chests, 3 trunks, 4 pkgs mds, 73 bbls, 3 half do. salmon, 5 cases furniture, 1 hhd. glassware, 13 cases saws, 10 cases shovels, 63 bdls do., 30 bdls. forks, 2 hhds, and 3 cases picks.

The present available stock of flour in this market is estimated at equal to 100,000 barrels of all kinds — about three months' supply, which is more than sufficient to suffice until the new crop app ars in market.

There is no disputing the fact that the miners \$7 75 per barrel in lots, and wheat at \$1 per throughout our State are now and have been doing better the last four months than at any previous period since the discovery of gold.

The deposits at the mint in a single day last week for coinage amounted, in the aggregate, to the amount of sixteen thousand ounces, or about a half a ton of gold, or \$300,000 in money Upwards of 800 ounces were deposited by onc gentleman from Shasta. Does it look as if the mines are giving out?

Your readers have been apprized of the confirmation of the so-called "Bolton and Barron's" claim to the property located at the "Mission Dolores," San Francisco county. The confirmation of this claim affects the interests of a large number of our citizens, and involves the fortunes of many who claim under and others claiming adversely to said claim. It is generally understood that this large tract (over 10,000 acres), in and immediately adjacent to our city, is the property of Palmer, Cook, & Co., of this city, and residents of Philadelphia; furthermore, that the Reading Railroad Co. are also largely interested in this decision by purchase, which, if true, must materially advance their stock in

The steamer Cortes, of the Nicaragua line, arrived here at an early hour on the morning of the 7th inst., followed by the Uncle Sam, of the line, which latter steamer arrived here at the wharf at 8 o'clock on the morning of the 12th inst., in the shortest time ever known both from New York and New Orleans—only twenty-one days from New York and 19 days from New Orleans.

In regard to business affairs generally, there is a manifest improvement, gradually becoming apparent among the mercantile community. Goods are, however, selling at little or no profit, and for three months ensuing, trade must be limited; though we feel considerable confidence

in predicting a good trade this fall.

The reports from the interior in regard to the grain crop, are somewhat confliction, yet we are sattsfied that the yi-ld will be but ualf the usual product of California soil, but that the increased breadth of land sown will furnish us an abundant arms of the confliction. an abundant supply for our own consumption, and leave us at least one hundred thousand bar-rels flour surplus for export. ONTARIO

[From the Alta California.] Yours, respectfully,

W. W. McGARITY,
Of New Orleans.

A correspondent wishes us to publish a defense of Gen. Stringfellow, the border ruffian who headed the Missouri invasion of Kansas.

Our opinion of Stringfellow is, that, if he had his deserts, he would be a strung-fellow.

Yours, respectfully,

W. W. McGARITY,
Of New Orleans.

Killed by Lightning.—Richard Tabb, a stepson of Mr. John Terhune, a sprightly youth 14 or 15 years old, was killed by lightning about 14 or 15 years old, was killed by lightning about 12 o'clock on yesterday, near Dover, in this his deserts, he would be a strung-fellow.

Graham's Magazine for June.

Summary of the Fortnight's News.—The great claim of James R. Bolton, for the lands of the ex-Mission of Dolores—three square leagues immediately adjoining the city of San Francisco—was confirmed by the U. S. Land Commissioners on the 5th inst. The grant calls for about fifteen thousand acres. The lands were granted in 1846, by Governor Pico, to the Padre

Santillan, the resident priest of the Mission, upon the condition that he would pay the debts of the Mission (at that time amounting to a few thousand dollars), and comply with a few other unimportant conditions. These conditions were complied with, the debts paid, and the Padre put in judicial possession. Matters went on very quietly until the occupation of the country by the Americans, and the subsequent discovery of gold, when the priest found himself involved in all kinds of trouble with the "settlers." Litigations were crowding u on him, and, findin all kinds of trouble with the "settlers." Litigations were crowding u on him, and, finding himself totally inadequate to the contest, he sold his claim to Mr. Bolton and moved off to Mexico, his native country. Had he retained possession of the claim he would at this day have been one of the richest men in the coun-

The decision of the Land Commissioners is one of vast importance to the whole community. It establishes a title to the land in question, and course. Some of the present owners of the land are disposed to compromise with the occupants upon reasonable terms, and all who have built upon reasonable terms, and all who have built houses or made other improvements are coming forward to obtain deeds from the proper parties. Some time since Mr. Bolton disposed of one-half of his claim to a company of capitalists in Philadelphia, and the other half to Messrs. Palmer, Cook, & Co. of this city, and under their management the property will enhance rapidly in value, as they have the means to make such improvements and apply such influences. such improvements and apply such influences as will carry the business of the city in that di-

A plague of grasshoppers has been experienced around Marysville, by which all green things are devoured. They have been collected and eaten by bushels by the Indians.

From a table recently published, it appears that there are fifty-four flour mills in this State, supposed to be able to turn out 4,000 barrels of flour per day.

Mr. Geo. N. Briggs, of this city, a native of Smithfield. R. I. has invented a steamhout.

Smithfield, R. I., has invented a steamboat-wheel, the paddles of which are moveable, and are so made as to stand perpendicular so long as they are in the water. This invention has been examined and approved by a number of mechanics. He goes to New York by this steamer, in order to get his invention tried on a steam-

Female Labor .- We allud d some time since to the extraordinary price demanded by females for their services in doing housework for families. Since that time there has been little reduction in such demands, though the numbers of that class have nearly doubled. A good cook cannot be procured for less than \$50 per month, and an ordinary housemaid demands \$40. The consequence has been that many families have been driven from the State, while others get along as best they can with male help, which can be hired at one-half the price of female labor.

The First Train .- The first emigrant train of the season, says the Grass Valley Telegraph, passed through that place on Monday. It consisted of several wagons and about 600 head of cattle. The train belonged to Mr. Hooper, who has a ranch on Bear river, whither the train was

moving.

The Indians were friendly, grass was abundant in the valleys, and the rivers were general-

Seventy-five houses in Auburn have been de-

stroyed by fire. Loss \$250,000.

Average Yield of the Mines—Coinage of Gold.
The average yield of the gold mines of this State during the present season is fairly estimated at sixty millions of dollars per year, and every indication satisfies the belief that the yield for the year 1855 will fully equal that of any previous year since the discovery of the mines. The U.S. Branch Mint in San Francisco is coining at the feetile of the feetile. the rate of \$100,000 per day, and, if the facil: ties for coining were twice as great, there is sufficient gold dust on hand to keep the mint in full operation for several months to come. During the week ending Saturday, May 26th, the coinage of double eagles amounted to \$615,000—being at the rate of two millions four hundred and sixty thousand dollars per month, of twenty-six working days. It is estimated that the coinage of three months of the present year will edual, if it does not exceed, the entire amount of coinage during the preceding year. The dust is still coming on in quantities of from one hundred ounces to half a ton, and the demand for coin increases daily. An effort is being made to increase the coinage to \$4,000,000 per month, and it is estimated that this amount may be set down as the regular average after the ex-

Growing Tobacco.—The practicability of of raising tobacco in California has been tested by by a man named Wm. E. Stewart, who sends to the editor of the Stockton Republican a sample plant which he believes compares with any in the Union. In a note to the editor, Mr.

Stewart says:
The sample I send you is an average specimen on the Stanislaus river. Thus far we have had no occasion to irrigate our ground, which was prepared in the old Maryland style. It is our ntention to manufacture one crop of tobacco, simply to prove to the older States that besides being the best grain State California is by no means behind in the quality of this luscious

We have had some little inconvenience from the tobacco worm, but not beyond what has been experienced in other sections of the Union where this is the staple product. We are locaed on the Stanislaus, near the base of the foot hills of the Sierra Nevada, and, although in full view of its snowy tops, we expect during the present week to indulge in the luxury of green corn-as fine, too, as ever graced a farmer's

THE CAPTURE OF SAN JUAN DEL SUR BY Col. Walker .- The N. Y. Courier bas received the following intelligence from a passenger by the Northern Light:

Walker arrived off San Juan del Sur in the brig Vesta on the morning of June 28th, and succeeded in landing his whole party, consisting of some 60 men, at a small place to the north of the town, which they captured without difficulty, after which they marched direct on Rivas, which they took without resistence. which they took without resistance. Here they were joined by about 200 soldiers, adherents of Gen. Castillon.

On the news of Walker's landing being received at San Juan, the soldiers stationed at that port (200) marched for Rivas to give him battle, but seem to have thought better of it, as they returned the same night. On the 29th of June firing was heard in the direction of Rivas, and

it was supposed that a fight had taken place, but nothing definite was known.

The passengers which came down in the Sierra Nevada met a detachment of Government troops who had been to Virgin Bay collecting the arms that had been left there. The troops that had joined Walker were said to be the best in the country and the greater postion of the in the country, and the greater portion of the intelligent men in the country were in faver of him. The information, however, was received from those who were favorable to Gen. Castillon

and the Democratic party, with whom Walker had sided, most of the others having ran away.

A spy from Walker's camp, which was but 6½ miles from Virgin Bay, was in that town on the night of the 29th of June, and reported that they had been well received by the best men at Rivas and vicinity, who were anxious for a per-Rivas and vicinity, who were anxious for a permanent government at any cost.

THURSDAY EVENING, JULY 12, 1855.

THE BALTIMORE AND OHIO AND CENTRAL OHIO RAILROADS .- For the last year we have very seldom noticed railroads, but, having recently traveled upon the roads designated above, we cannot deny ourselves the gratification of bearing strong testimony to their condition and their management. Most certainly there is not a railroad in the United States upon which the comforts of traveling are greater than upon that between Wheeling and Washington or Baltimore. The conductors deport themselves almost like personal friends of the passengers, and the seats in the fine and spacious cars are so admirably arranged for sleeping, that ladies and gentlemen we really believe, might travel uninterruptedly a week back and forth upon the road day and night without any unusual fatigue. The time between Cincinnati and Washington is now but twenty-six running hours and between Cincinnati and Baltimore only twenty-four hours, and between Wheeling and Baltimore, it is but about fifteen hours. The safety of traveling upon the Baltimore and Ohio road may be inferred from the fact that only one accident has ever occurred, although the cars have been running for years. The scenery through the Alleghany mountains is by far the wildest and most beautiful ever beheld upon any railroad in this country if not in the world.

The superintendents and agents of the Baltimore and Wheeling road are entitled to the thanks of the public and of the company they serve for the care and energy that they display in keeping all the arrangements connected with the route in the most perfect order and for the good will which they win to it by their urbanity and their active exertions to please all who have any business intercourse with them. The agent at Baltimore, Mr. Wm. Prescott Smith, is a truly invaluable officer, who is always where he should be, doing always what he should do.

We invite attention to the following notices:

[From the National Intelligencer, June 15.] TRAVELING FACILITIES .- Upon the completion last winter of the Central Ohio Railroad from Columbus to the Ohio river at Bellair, helow Wheeling, it was intended to connect directly at that point by ferry with the Baltimore and Ohio Railroad, running from Washington and Baltimore to Wheeling. The city of Wheel-ing, however, by its issue of an injunction upon this connexion between Bellair and Benwood, prevented the completion of the necessary tracks, buildings, wharves, &c., undertaken to facilitate the comfortable and prompt transfer of the through travelers from one road to the

This measure, therefore, disconcerted the two companies, and so interrupted their operations as to greatly inconvenience the traveling public. The arrangements heretofore in force being seriously complained of by travelers, the railroad companies have now given up their former road and fixtures and have put on another, with such other more perfect provision for the comfort and convenience of the public as must insure full satisfaction to the increasing business of

this favorite route between the East and West.
We are informed that the present advantages of the route are about being still further in-creased through the sagacious and enterprising administration of the transportation superintendents, John H. Done, of the Baltimore and Ohio, and J. H. Southwick, of the Central Ohio roads. The time between Washington and Wheeling is about being further shortened from seventeen and a half to sixteen and a half hours, and between Washington and Cincinnati from twenty-seven to twenty-six running hours. It is said, that, upon the completion of the western division of the Ohio and Mississippi railroad from St. Louis to the Wabash at Vincennes, this route will form connection with it by way of Columbus, Xenia, Dayton, Indianapolis, and Terre Haute, by which the trip will be at once made from Baltimore or Washington to St. Louis in the greatly reduced space of forty-three hours, or but little more than one day and a

[From the Baltimore American.]
The increased advantages of the Baltimore and Ohio route as a passenger line, since the completion of the Central Ohio road, have already been demonstrated, even with the imper-fect connection heretofore made between these two roads at the Ohio river, from the perversity of Wheeling interests and the difficulties at tendant upon the plan of connection at first We are now informed by passengers who have just come over the route that great improvements have lately been effected by superintendents of the two roads, greatly facili-tating the transfer of passengers and baggage. This important change, with the regularity now attained and established under the lately revised running schedules of the two roads, almost in sures the connection of every train in each di-

It is more especially in the tonnage department, however, that the fortunes of the combined routes seem to improve. It will be re-membered that upon the opening of the Central Ohio Road to the Ohio River last fall, its imperfect condition, arising from the want of means to complete it, rendered the attempt to carry large quantities of through freight at that time unsuccessful. Now that the road is at last ballasted and become settled, and is better equipped in all respects through the time and means spent in that object, the large shippers between Cincinnati and the East are "trying it" once more. We are redibly informed that the through freight handed over to the Baltimore and Ohio Road daily, for several days last week, amounted to more than 200 tons, and that shipments loaded at Cincinnati for some of our leading firms in Baltimore have been brought through and delivered here regularly every day for the last two weeks in five days' time including the loading day at Cincinnati. This prop erty has but one transhipment; travels but 631 miles between Baltimore and Cincinnati; is carried upon through receipts by railroad; subject ed to a much reduced expense at Wheeling, and is delivered here, safe, sound, and dry, in five

days.

This is the very perfection of merchandise transport, and the ease and regularity with which it is done must command for the route the greatly increased favor and patronage of the business community.

The Ups and Downs of Life.—On Sunday, the 1st inst., a woman, who was found wandering about the streets in a fit of mania-a-potu, was taken to the Ninth ward station-house. She was taken to the Ninth ward station-house. She was afterwards sent to the alms-house. This unfortunate creature was at one time the wife of one of the most distinguished citizens of New York, from whom she was subsequently divorced. Her friends have had her placed in the insane asylum since she was taken to the alms-house.

Phil. Bulletin.

Our subscribers at Richmond complain of not receiving their papers regularly. They report three failures last week. As our worthy P. M. can testify we have seldom failed in the last twelve months (not more than three or four times) to have our papers in the office in time for the early mails, so if our subscribers do not get their papers the fault is with some one or more of the post-offices in the interior. Our Richmond friends think the fault is at Lexington; if so, we trust it will be remedied.

THE BASIN OF THE ATLANTIC. - Modern science has made many discoveries in relation to the ocean, its depths, and its beds or basins. According to Mr. Charles R. Weld, who recently made a tour through the United States and Canada, the vast sea-weed meadows of the Atlantic, which cover a space seven times as large as France, teem with life, and deep seasoundings, which reveal the sea-floor of the greatest depths, show that the bottom of the ocean is f equently paved with calcareous and silicious shells. The Atlantic basin is a vast trough, bounded on one side by America, and on the other side by Africa, and rising out of this trough are mountains higher than the loftiest Himalayahs, from peak to peak of which huge whales hold their course with the same precision with which eagles pass from crag to crag; and valleys deeper than any trodden by the foot of man, within whose oozy folds the great waters lie in perpetual repose. Depths have been sounded in the Atlantic greater than the elevation of any mountain above its surface.

Another modern writer, speaking of this great basin, says, that could its waters be drawn off so as to expose to view this great chasm, which separates continents and extends from the Arctic to the Antarctic, it would present a scene rugged and grand beyond description. The very ribs of the solid earth would be brought to light, and we should behold at one view, in the mighty cradle of the ocean, the sad remains of a thousand fearful wrecks, with their countless human skulls buried in heaps of pearl and inestimable stones, which lie concealed forever upon the bottom of the deep. From the top of the Chimborazo to the bottom of the Atlantic, at the deepest place yet reached by the plummet in a vertical line, is nine miles. The deepest part of the North Atlantic is probably somewhere between the Bermudas and the Grand Banks. The waters of the Gulf of Mexico are held in a basin whose greatest depth is about a

SUSPENDED INDIANA FREE BANKS. - The Auditor of State notifies those holding the circulating notes of the Traders' Bank at Nashville. Elkha:t County Bank, Bank of Attica, Atlantic Bank at Jackson, Orange Bank, Bank of Albany, State Stock Bank of Indiana at Peru, Bank of Bridgeport, Bank of America at Morocco, and the Public Stock Bank at Newport, to return the same to the Auditor's Office, Indianapolis, for cancellation, before the first day of October next, that the outstanding circulation may be determined as accurately as possible, and a pro rata dividend thereon declared. Certificates for the amount returned will be issued, and the dividend on the respective banks paid upon the presentation of the certificate at that office after the first day of October next.

The La Crosse (Wisconsin) Democrat of June 22 says that eighty millions of logs were put into the Black river and tributaries during the past winter, and there remains on hand, from the previous year, forty millions. Of these the Booming Company have worked down forty millions, ten of which had reached the Mississippi, while the rest were waiting the "June rise" (which has since come) in a two thousand acre swamp, just above the mouth of the river. The current rate of logs, available to the Mississippi, is \$13 50 a thousand. This rate would have brought the whole force of Black river logs to a millon and a half dollars The average cost of cutting, hauling, booming, and driving logs to the Mississippi is \$6 a methods of preparing the match, and how one thousand.

Capt. Sloan, of Evansville, has serious pprehensions that the two young men, brothers, who got on the steamer Lexington at Smithland, and were killed by the explosion of that steamer, are his sons. These young men were reported from Georgia. Capt. S. has two sons who have been residing in Georgia, and who were expected home.

The inmates of the New York Lunatic Asylum celebrated the Fourth of July in a highly rational manner. They had a mad orator, a mad choir, and a prayer was made by a mad clergyman. The oration is spoken of as being fully equal to the average of Fourth of July orations made outside of mad-houses.

The Yankee Blade contains a curious typographical blunder in an article headed "The Ways of a Bombshell." It says, "As hell is a diabolical invention, which no one can regard as it approaches without a certain degree of misgiving," &c.

FINE APRICOTS .- We are indebted to that model farmer and horticulturist, Lawrence Young, Esq., for some specimens of his Hemskirke and Brussels apricots. They are the most beautiful fruit that we have seen this season, and their flavor is equal to their beautiful fruit that we have seen this season, and equal duties." and their flavor is equal to their beauty.

Communication between the Old Continent and the New.—An additional step toward the estab-lishment of electric communication between America and Europe is about to be effected in the course of a few weeks. The submarine telegraph cable to connect Cape Breton Island with Newfoundland is in course of shipment on board the Sarah L. Bryant, at the works of W. Kuper & Co., the manufacturers, at Greenwich, and in less than two months the line is expected to be in operation. The length of cable is 74 miles, weighing 400 tons, and it contains three miles, weighing 400 tons, and it contains three conducting wires. Mr. Canning, an engineer in Kuper & Co.'s employ, and who was engaged in laying down the Mediterranean line from Spezia to Corsica and Sardinia, is to superintend the work.—London Times, 22d ult.

on portions of it. Suddenty the whole mass took fire and exploded with great violence, dangerously burning all the lads. One of them, son of Mr. Keemon, is since dead, and two of the others are in a very dangerous situation.

Washington Organ, 5th inst.

AGRICULTURAL DIVISION OF THE PATENT OFFICE.—The Grain Moth.—We make still another extract from the pen of Mr. Glover (treating of insects injurious to vegetation), which will be published in the forthcoming agricultural report:

"The grain moth (tinea) was first observed by me in South Carolina and Georgia in September last. It infests the corn-fields, where it is sheltered by the husk, and burrows between the grains, upon which it feeds, somewhat in the manner of the Angumois moth, except that the kernels are more irregularly eaten. The cooutside of the grains when partially devoured. The first brood of moths appeared early in September; and as the caterpillars of this moth produced perfect insects in October, it will be difficult to determine how many broods can be brought forth during one season in these warm The caterpillar is about three-tenths of an inch in length, and of a pink or reddish hue. The cocoon, which is of an oval shape, is formed of fæces, particles of corn dust, and silk, cemented together in or among the grains. The chrysalis remains in the case from ten to fourteen days, according to the state of the weather. The moths, which are very lively, when in a state of rest place their upper wings together at an angle somewhat resembling the roof of a house, with the ends turned. They measure, when expanded, not quite four-tenth of an inch from tip to tip, and are chestra brown, mottled or marbled with a darker brown, black, and vellow. The under wings are also brown, very narrow, and edged with a wide fringe of fine hair.

"No remedy can at present be suggested to guard against the attacks of these insects until more thorough investigation of their habits has been made. These worms also appear to attack corn out of the field as well as in. They are occasionally taken from decaying cotton bolls which have been previously pierced."

[From the Harrisburg Herald, July 7th.] THE SEDUCTION AND ELOPEMENT CASE.— We some time since alluded briefly to a case of seduction and elopement, but, not being fully advised of the particulars, we refrained from giving publicity to the names of the parties interested, being unwilling to incur the responsi-bility that might have arisen in the event of the rumor proving unfounded, or at least exagger-ated. These objections, however, being rewe have now no hesitation in giving the particulars of the case. It appears that a school-teacher named John Killwell, residing in East

Hanover township in this county, who had a wife and two children living with him, eloped with a young girl, fifteen years of age, named Mary Rauch, daughter of William Rauch, a respectable farmer of the same township. Mary had been going to school to Killwell for some two years, during which time he had gained her affections to that degree as to have almost entire

control over her.

The elopement caused much excitement in the neighborhood, and numbers turned out in pursuit of them. They were found and arrested a few days afterward in what is called the Fourth Mountain, by Mr. Joseph Strohm, having been in the woods during the time of their absence. The girl was in a state of almost helpless weakness, our informant stating that an abortion had been produced on her between the time of her leaving her father's house and when she was found. She is represented as a smart, comely girl, with at least ordinary intelligence. Her father came up soon after they were found, when she threw herself upon his neck, beseeching his forgiveness in the most affecting manner. Killwell was brought to our borough last, and lodged in prison to answer the charge. It is a case showing extraordinary depravity in the betrayer; and it is not to wondered at, that a disposition was evinced by the neighbors to take the law in their cwn hands.

GUNPOWDER-Fireworks-Antiquity of the Rocket, Cracker, &c.—The following clear and positive passage of an author called Marcus Græcus, whose work in manuscript is in the Royal Academy at Paris, entitled "Liber Igniwhile it proves beyond doubt that the ancients were acquainted with gunpowder, also discloses the fact, that the Rocket and Cracker were among the earliest forms in which it was exploded. The author, describing several ways of encountering an enemy by launching fire upon him, among others gives the following re ceipt:—"Mix together one pound of live sul-phur, two of charcoal of willow, and six of salt-petre; reduce them to a very fine powder in a marble mortar." He directs a certain quantity of this to be put into a long, narrow, and well compacted cover, and so discharged into the air. Here we have the description of a rocket. The cover with which thunder is imitated he represents as short, thick, but half filled, and strongly squib may set fire to another in the air by pla-cing it enclosed within it. This author is spoof by Mesue, an Arabian physician, flourished in the beginning of the ninth century. There is reason to believe that is the same of whom Galen speaks.—[Hone's Table Book, part 2, c. 792.] Ebn Fadhe, an Egyptian geographer of the thirteenth century, describes nakes thus:-Bodies in the form of scorpions bound round and filled with nitrous powder, glide along, making a gentle noise; then exploding they lighten, as it were, and burn. Moore's Works, p.99.

The New Czar .- It is an old custom in Rus sia, that, after a new Czar has mounted the throne, he should visit and inspect the archives of the Empire, inform himself carefully of the ukases of his predecessors, and either ratify or modify or repeal them. On April 15th the present Emperor went through this ceremony. He is understood on this occasion to have met with a ukase of his father's, dating as far back as 1841, to the effect. that, in consideration of the good feeling shown by the Poles, and their complete affection for the throne of Russia, they should in future enjoy equal rights with other nationalities in the Empire, and be admit-ted to share in the advantages of the Imperial good will, "with the exception, however, of the lows." The young Emperor is stated to have looked very grave at this exception, and to have said, "Such an exceptional state shall not exist any longer in Russia. This matter shall be al-

Explosion of a Bag of Powder-Four Boys Blown up.—While the United States artillery were firing the salute yesterday, a bag of pow-der, which was damaged, was thrown aside as for use, and carelessly allowed to remain without any one in charge of it. Four small boys, the sons of Mr. Ross, Mr. Frear, and Mr. Keemon, seeing that it was not claimed by any one, and thinking it a great prize, conveyed it to the neighborhood of the residence of Mr. Ross on Thirteenth street, and, having obtained some matches, amused themselves by setting off portions of it. Suddenly the whole mass

Dissolution.

NOW READY, Hughes& Breckinridge's Oral Discussion.

Hughes & Breckinridge's Oral Discussion.

The Oral Discussion between the Most Rev. Archbishop Hughes and the Rev. John Breckinridge, D. D., on the question "Is the Roman Catholic Religious, in any or in all its Principles or Doctrines, opposed to Civil or Religious Liberty?" and of the question "Is the Presbyterian Religious Liberty?" has Just been Doctrines, opposed to Civil or Religious Liberty?" has Just been Doctrines, opposed to Civil or Religious Liberty?" has Just been and for this work (which has been out of print for swill push for this work (which has been out of print for swill pears) have induced us to make such arrangemeats with the owner of the copyright as will enable us to furnish it to the trade and others at very reasonable rates.

This is a very useful book for politicians, as it discusses in a masterly manner all the points of the Catholic doctrine and discipline, which are just now greating so much excitement.

The work is printed on fine paper, and bound in neat bind-ing, and sold at the moderate price of \$1.50. Orders respectfully solicited.

PUBLIC NOTICE.

RUSHTON, CLARK, & CO.'S GENUINE Cod Liver Oil. FOR CONSUMPTION, SCROFULA, &c.,

THE late firm of Rushton, Clark, & Co. being disselved by the Death of W. L. Rushton (the only Rushton ever connected with the firm), THE IR GENUINE COD LIVER OIL will in fature be prepared only by HEGEMAN, CLARK, & CO., surviving partners and sole successors. It was MR. CLARK who went to Newfoundland to superintend its manufacture, and he is the only Druggist who ever went from the U. S. for that purpose, and as he will continue his supervision of that branch of our business, we will warrant our OIL PURS and GENGINE. As success in its use depends upon its purity be particular to see that the signature of HEGEMAN, CLARK, & CO., or RUSHTON, CLARK, & CO., is over the cork of each bottle! Hundreds of persons who had been using the Oil of other a kers without success have been restored to health by the PURS OIL of OUR MANUFACTURE. Be particular in ordering to specify HEGEMAN, CLARK, & CO., as it was Mr. Clark and not, Rushton who has superintended its manufacture; and since Mr. Rushton's death there has been a Rushton's Oil introduced which is not in any way connected with Rushton, Clark, & CO., the first of the only representatives of that firm being HEGEMAN, CLARK, & CO.

Sold by Wilder & Brother, Wilson, Starbird, & Smith, Lingenberger & Co. R. A Robinson & Co. J. S. Morrise & Son.

eing HEGEMAN, CLARK, & CO. Sold by Wilder & Brother, Wilson, Starbird, & Smith, Linenberger & Co., R. A. Robinson & Co., J. S. Morris & Son, J. & Montgomery & Co., Bell, Talbot, & Co., Sutcliffe & Tughes. Morris, and by druggists generally.

LATEST NEWS.

The Court of Appeals have granted an appeal on the part of the city in the mandamus cases of Kean and Vacaro vs the General Council. In consequence, Judge Bullock has released from jail the members that were confined there.

We are indebted to the steamer Southerner for favors.

STEAMBOAT NOTICES .- We are indebted to the magnificent steamer R. J. Ward for New Orleans papers to the evening of the 5th and copies of the manifest and memorandum. She leaves to-morrow evening.

The Belle Quigley has our thanks for a copy of the manifest. The Eaves discharged a good deal of freight at Evansville.

The Memphis papers state that the steamer National will run as a packet in the Memphis and Louisville line.

The following card from the Captain of the Southerner appears in the St. Louis Republican:

I have seen in the papers of this city that the Northerner, Capt. Fuller, claims to have beaten the Southerner's time from Louisville to St. Louis thirty-eight minutes. Fearing that the public do not know the facts of the case, I respectfully state that the Northerner left Louisville one hour and a half earlier and arrived at St. Louis a half hour later than the Southerner. I will leave the public to judge which boat made the best time. SOL. CATTERLIN.

LOUISVILLE CITY DIRECTORY .- We are pleased to announce the fact that our worthy friend, W. Lee. White, Esq., has consented to undertake the publication of a Directory; and having availed himself of all the necessary means for its speedy completion, we are assured that it will be in course of publication within a few days.

THE MISSISSIPPI.—The St. Louis Republican of Tuesday says:

The river at this point is rising slowly, and is reported on a stand at Keokuk, with 24 inches on the lower rapids, and 34 on the upper rapids. Illinois river falling, with 4 feet to Lasalle. The Missouri river is falling by last reports, with 5 feet in the channel. Weather yesterday very warm. The thermometer stood at 99 deg. in the shade at 2 o'clock. Arrivals scarce, and receipts light.

SPECIAL DRY GOODS NOTICE.

ADDITIONAL BY THE PACIFIC.

NEW YORK, July 11. Latest Dispatches from the Crimea.—Lord Panmure has transmitted to the papers the fol-lowing intelligence, which reached him yester-

day (29th):
The French and English are proceeding with their approaches against the enemy's works and are erecting new batteries to be armed with heavy guns. The enemy continues repairing the damage done during the last attack. There is very little fire on their part. We retain pos-session of a round Russian fort in the cemetery, from whence they were driven on the 18th, and the Mamelon, at the gorge of the valley which divides the English left attack from the right of the South harbor.

The Paris correspondent of the London Times speaks of a corresponence having taken place between the French and English Governments, arising out of complaints by Gen. Pelessier of the want of a combination or an energetic support upon the part of his English colleague.

The blockade of the ports of the White Sea

was effected early in June.
The Grand Duke Nicholas has reviewed the troops at Helsingfors and Abo and was expected

Dantzic, Friday, June 29.—The Vulture has arrrived with mails from the fleet. The fleet is off Cronstadt. Forty-six infernal machines have been discovered and destroyed. One of them exploded on the poop of the Exmouth and Admiral Seymour and Capt. Louis, who were examining it at the time, were severely injured.

Lieut. Pierce was slighly injured.

Vienna, 28th, 9 A. M.—The official Wener

Zeitung announces the dismissal of the reserves of the 3d and 4th armies.

Austrian advices from Vienna state that there is no foundation whatever for the statement that appeared in several German papers that new proposals of peace had reached that capital from St. Petersburg.

[From the London Times of the 26th.] The actual number of our own killed and wounded at the recent attack on the Redan is not of that terrible amount first supposed when it was stated that the loss of our noble army was not less than 4,000. That was interpreted to mean the British loss alone, and it was inferred that if we had lost so many the loss of the French must have been 10,000 or more. It appears that the total of the killed and wounded in the whole allied army does not exceed 4,000, in the whole allied army does not exceed 4,000, of which our portion is just 1,300 men. The number of non-commissioned officers and men killed is 144, wounded 1,058. The total number of officers killed and wounded is 93, making the exact total 1,295.

CINCINNATI, July 11. The British consul and others, before the U.

S. commissioner for enlisting men for the Crimea, were on trial. Some of the Irish enlisted not intending to go, but to involve the British not intending to go, but to involve the British agents for recruiting. The British consul, when applied to, did not give an assurance of compensation, but was satisfied that whoever took 100 men to Canada would get a Captaincy. The recruits testified that they had been engaged and furnished with means to go to Canada for enlistment, and they accepted for the purpose of exposing the British authorities. The comm ssioner adjourned until to-morrow without adjourned until to-morrow without coming to a decision.

WASHINGTON, July 11.

The President has issued a proclamation in relation to the reciprocity treaty, establishing among others the following ports on the frontier through which bonded merchandise may be exported to Canada under that treaty: Toledo, O.; Chicago, Ill.; Milwaukie, Wis.; and Michilimacinac.

A joint commission to arrange the preliminaries for a settlement of the fisheries question with the British government, will enter upon its duties immediately.

NEW YORK, July 11.

The ballance of specie in the Assistant Treasurer's office is \$2,000,000.

Judge Birdsall, of the marine court, decided this morning that the sales of foreign liquor by

the glass is a violation of the New liquor law.

The Baltic sailed at noon to-day. She takes out over 200 passengers and nearly \$1,000,000 in

NEW YORK, July 10.

A petition for relief has been forwarded to President Pierce by a party of Germans, now imprisoned at Melville Island, Nova Scotia. They say that they were hired in New York to they were offered the alternative of enlisting for the Crimea, or imprisonment. They chose the

The St. Louis Republicant has the following in regard a

hemp:

Hemp, we believe, is the only bnoyant article on the market at present. Late receipts found purchasers readily, and at the close the levee was nearly if not entirely bare. Saturday's prices ranged from \$100 to \$107, with 180 bales on private terms, supposed to have been at \$110 or \$112—tuken by a Montreal buyer. This lot was a veoy choice one, grown and prepared by J. Campbell, of Lafayette county. Mo. The demand is good from almost every point where the staple is used. As the June rise of the Missouri appears to be over, receipts will probably fall off, and the supposition is that prices must improve.

ANORDINANCE

Regulating the levy of city taxes for the year ending March 9, 1856, prescribing the duties o. collectors, and fixing their compen-

Sec. 1. Be it ordained by the General Council of the City of Louisville, That a tax of one dollar on each one hundred dollars' worth of real estate, slaves, and pleasure carriages now assessed, or hereafter to be assessed, for taxation in said city, is hereby levied, four per cent. of which shall be set apart to the support of the alms-house, eighteen per cent. of which shall be set apart for the support of the public schools and high schools for females, and including interest on bonds issued and to be issued, and ten per cent. of which shall be set apart for the support of the Fire Depart-

Sec. 2. A tax of one dollar and fifty cent is also hereby levied on each free male inhabi-tant of said city, over the age of twenty-one years, now listed or who may be hereafter listed for taxation.

Sec. 3. Each collector charged with the col-lection of the aforesaid taxes shall receive as compensation for his services one per cent. on the first forty thousand dollars collected and paid over to the Treasurer by nin, one and half per cent. on the next twenty thousand dollars, and two and three-quarter per cent. on the residue, but the compensation of neither of said collectors shall in any event exceed

fifteen hundred dollars.
Sec. 4. Each collector charged with the collection of the aforesaid taxes shall, on the 20th day of July, pay into the city treasury not less than one per cent. of the aggregate amount of said tax bills placed in his hands, and not less than one per cent. of said aggregate amount sach succeeding Thursday in the month of July and not less than two per cent. of said aggregate amount on each Thursday during the month of August, and not less than two and one-fifth per cent. on each Thursday during the month of September, and not less than three per cent. of said aggregate amount on each Thursday during the months of October, November, and Decem-ber, and not less than four per cent. of said ag-gregate amount on each Thursday during the months of January, February, and March, up to and including the 9th day of said last named month Each Collector, at each of the periods above designated, shall pay into the treasury the entire amount then collected by him, whether the sum so collected is greater or less than the amount above required to be paid by him.

Sec. 5. Should either of said collectors fail to pay into the treasury the taxes placed in his hands for collection, first deducting his commissions, errors in tax-bills, and delinquent list, as required by the General Council, at the times and in the sums required by the 4th section of this ordinance, there shall be deducted from his compensation or commissions, two per cent. upon all sums not paid as required, and all settlements made with him shall be made according to the provisions of this section.

Sec. 6. Each of said collectors shall at all times when required to do so by the General Council submit for examination his books and the state of his collections.

Sec. 7. Should either of said collectors be removed from office or resign or otherwise va-cate his office, he shall forthwith return to the Mayor all uncollected tax-bills in his hands.

Sec. 8. Neither of said collectors shall re-ceive anything in payment of taxes except such money as is received on general deposit by the banks in the city of Louisville.

Sec. 9. The collectors shall have power at any time after the tax-bills are listed with them for collection to levy on and sell the personal property or slaves, if any such is to be found in the city belonging to the persons owing the taxes, or upon the personal property belonging to any tenant and found in or upon the premises of any person owing the taxes, and if no personal property of either owner or tenant can be found city then the collectors shall levy on the lot and improvements and advertise the same for sale at public auction before the court-house door, between the hours of 10 o'clock A. M. and 2 o'clock P. M. of the day designated in said advertisement, and after said levy is made, if the owner of the property be a non-resident, the collector shall ascertain his or her whereabouts and send a written notice to said owner that he intends to make a sale on a given day unless all claims for taxes are liquidated prior

Sec. 10. If the property levied on by said collectors belongs to a resident of the city of Louisville, or Jefferson county, it shall be advertised in some of the daily newspapers once a week a non-resident, once a week for six successive tors shall be allowed for advertising each lot or lot and improvements twenty-five cents and for each sale twenty-five cents, which fees shall be added to and collected with said taxes, and shall within two weeks after the sale report and return to the General Council a full and written statement of his proceedings as directed by the 22d section, article 6th of the city charter.

The Last Great American Novel.

THE MISSING BRIDE, or MARIAM THE AVENGER, by
Mrs. Emma D E. N. Southworth, author of "The Lost
Heiress," "The Wife's Victory," "Curse of Clifton," "The
Discarded Daughter," "Retribution," etc. Complete in one
volume of 835 pages, bound in cloth, for \$125, or in two volumes, paper cover, for \$1. Read the following opinions of
the press:

umes, paper cover, for \$1. Read the following opinions of the press:

"As a story writer this lady has nesuperior. She ranks as the first remale author of America, and deservedly so. Her works have attained the highest reputation, not only as works of fiction, but for the peculiar beauty and fascination which she weaves into every page of her romances. Her description of character and incidents are life-like and vivid, and always charm and delight the reader. We predict for the 'Missing Bride' not only a flattering reception, but a very extensive sale."—[Banner, Clarion, Pa.]
